# Secure Edtech and AI with Confidence

A cybersecurity solution that gives schools real-time protection

SecureClass gives schools complete control of edtech and AI security, protecting data from threats and making learning powerful and safe.

Peace of Mind & Simplified Security Across All Apps

AI-Powered Protection for Students

Ensure safe learning with real-time threat prevention and AI-driven security across all browsers.

Comprehensive Data Control

Gain full control over how student data is handled, ensuring privacy and protection without limiting the use of educational tools.

Effortless Security for IT Teams

Minimize IT workload with seamless, automated protection that simplifies district-wide security and browser management.

Scalable & Flexible Deployment

Easily deploy SecureClass across your district, ensuring every student and educator is protected without added complexity.

Experience SecureClass Risk-Free

Schedule a demo today to see how SecureClass makes protecting your district easier than ever.

What sets SecureClass apart?

Real-Time Threat Detection and Response
Identify and respond to cyber threats instantly, reducing risk with AI-enhanced real-time protection tailored for education and learning.

PII Masking & Customizable Data Controls
Tailor security settings for each application, website, and user group, to prevent unauthorized access and ensure privacy.

AI Protection for Classrooms
Ensure responsible AI use by masking PII, preventing misuse, and enforcing security standards, empowering ethical, secure AI-powered learning.

Smart, Integrated Security Insights
Enhance your security stack by seamlessly integrating with tools like SPLUNK and SIEM, enriching data insights for smarter, more proactive student protection.

Instant Deployment, No Hassle

Instant Deployment, No Hassle
Get up and running instantly with a simple browser extension—no need for agents or complex installations.

Complete Control in One Place
Easily oversee and manage security across every browser in your district, all from one centralized dashboard.

Effortlessly Scalable, Always Secure
Scale security across your entire district without extra steps, ensuring every student and device is protected.
