Get Students Access to the Right Tools Before Fall

If your fall goals include expanding CTE, improving certification rates, or standardizing tool access, this guide is a quick pulse check.

? Quick Questions to Ask Yourself:

➤ Can all students across sites access the same CTE tools?

➤ Do you still rely on physical labs in most programs?

➤ Are budget or IT limitations slowing growth?

➤ Are software requirements holding back district certification goals?

3 Low-Lift Improvements:

✓ Pilot browser-based access in one high-need program

✓ Standardize app access across devices and locations

✓ Build tech access into your fall certification plans

Try It Yourself
